Asbestos Notification Letter

01-June-2023

Notice to all Building Occupants, Parents, Students, Faculty and Staff:

Asbestos is an issue we have been dealing with for many years. The Asbestos Hazard Emergency Response Act of 1986 (referred to as AHERA), was enacted to determine the extent of, and develop solutions for, any problems schools may have with asbestos.

Asbestos has been used as a building material for many years. It is a naturally occurring mineral. Asbestos properties made it an ideal building material for insulating, sound absorption, decorative plasters, fireproofing, and a variety of miscellaneous uses. There were over 3,000 different products in 1973, and most uses of asbestos products such as building materials were banned in 1978.

As required by AHERA a certified asbestos inspector and management planner has inspected all facilities at Denver Street School sampling, and classifying the condition and hazard potential of materials in the school facilities suspected of containing asbestos. An asbestos management plan for the Denver Street School has been developed from the inspection and laboratory analysis records. Recently, the facilities were re-inspected to see that all aspects of the management plan are being carried out.

This notification letter, education and training of our employees, and a set of plans and procedures designed to minimize the disturbance of the Asbestos Containing Material (ACM), and plans for regular Surveillance of the ACM are a part of our efforts to meet government regulations (AHERA).

A copy of the asbestos management plan is available for your inspection in the school office during regular office hours. Inquiries regarding the plan should be directed to:
Patrick.Fisher@DenverStreetSchool.org

It is Denver Street School's intent to comply with federal, state, and local regulations in this area. Whatever steps necessary will be taken to ensure your children and our employees have a healthy and safe environment in which to learn and work.

Inquiries regarding the management of asbestos-containing materials in the Denver Street School should be directed to our AHERA Designated Person, Bear Slaven, who can be reached at bear@denverstreetschool.org
